Sir:

Applicants hereby request that the Petition for Extension of Time under 37 C.F.R. § 1.136 filed July 21, 2006 be credited to the above-referenced application.

On July 21, 2006, a Petition for Extension of Time under 37 C.F.R. § 1.136 (for a 2-month extension) (the "Petition") was filed in the U.S. Patent Office to provide co-pendency with a continuation application filed on the same date (U.S. Serial No. 11/490,207) claiming priority to 09/955,216. The Petition included a header containing the name of the first-named inventor, attorney docket number, the filing date of the application, the title of the application, the confirmation number, as well as the Examiner and Art Unit. A copy of the Petition and accompanying transmittal letter and U.S. PTO stamped postcard are attached hereto as Exhibit A. The header also contained the Serial Number for the application, but erroneously contained a typographical error, listing the Serial No. as 09/995,216 rather than 09/955,216. That this was a typographical error is obvious based on the other information contained on the header.

Thereafter, the U.S. Patent Office charged the Applicants' representative's deposit account for \$450, but did not attribute the extension of time with the above-referenced application. The requested extension was credited to the 09/995,216 application, an application that has been abandoned since November 15, 2004 according to public PAIR records.

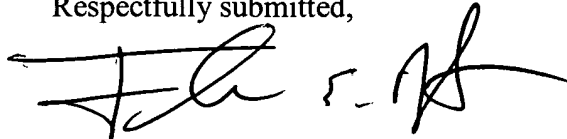

Applicants' representative was contacted by the Examiner regarding this matter. The Office indicated that the extension of time should have been attributed to the above-referenced matter rather than the incorrect application based on the other information contained in the header. This request is submitted in response to this conversation.

In light of the above, Applicants hereby request that the Patent Office credit the Petition for Extension of Time filed on July 21, 2006 to U.S. Application Serial No. 09/955,216 to establish co-pendency with U.S. Application Serial No. 11/490,207 filed on July 21, 2006.

In the event that extensions of time are necessary to prevent abandonment of this patent application, then such extensions of time are hereby petitioned. Applicants do not believe any fees are due in conjunction with this filing. However, if any fees under 37 C.F.R. §§ 1.16 or 1.17 are required in the present application, authorization is hereby given in the accompanying transmittal letter.

Should the Commissioner require additional information, he is invited to contact the undersigned at the number provided below.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'T. E. Holsten', followed by a horizontal line and another signature.
